**Subject:** Re: permitting for Kalama

Please give me a summary of permits needed, who has authority (locals or state and is or other state agency) typical timeframe and estimated date.

Do you think by summer permits will be done?

When a permit is appealed does everything stop?

We are close to finishing 401. Also working with the Port of Kalama on a cost reimbursement agreement. They are delayed on approving the agreement. The 401 could be the first Ecy permit and will likely be appealed.

Most permits have not been issued yet by local or state agencies.

3 days of shoreline permit hearings happened earlier this week. Then locals make shoreline permit decision later. Then Ecy 30 days for Ecology to approval shoreline conditional use permit.

What is status of 401 cert for Kalama project. I'm hearing we may be the holdout that causes the project to fail and the company to withdraw.

Denise – Does Xandre’s note mean you don’t need me to talk with him?

How can I help?

Also – the person who knows the most about the 401 if you ever need urgent information is Brenden.

Hi Xandre-

I look forward to talking with you. My direct phone line is 407-6307 and cell is 789-9500. If you need to reach me and I am not picking up either phone, my assistant Jennifer Greenfield (407-6308) may be able to help.

-Sally

Xandre –

Sally Toteff is available after 2 p.m. today to have a call with you. I am available from 4:30-5. I suggest you and Sally talk and then I can get filled in later. Work for you? I will

likely be in the mobile at noon as well if you want to give me the scoop – but Sally is the right person to share info with.

**Subject:** permitting for Kalama

Hey Denise –

Brian and I met with Rep. DeBolt this week and had a long conversation about permitting the Kalama methanol project. Would you have a minute tomorrow or Monday to connect about this? I imagine the info I have from that conversation is not new to you, but figured it'd be good to download with you or the right ECY person.
